Austin Gardner

Building CS for Scale

Higharc

December 5, 2023

Situation

Company

- Series A vertical SaaS
- Rapid customer growth

Customers

- All SMB
- Self-service

Team

- Team of 3 supporting 700+
- Inexperienced team

shopmonkey

Challenge

Company

- Lacking CS measurement
- No Customer-led growth motion

Customers

- Success playbooks needed
- Platform guidance needed

Team

- Reactive
- Lacking alignment

Results

"We miss you…it just feels like no one was more influential and could drive more results for our business than you."

- Jeff S, Tint World COO

Company

- 30% revenue growth QoQ
- 98% retention

Customers

- 3 successful Enterprise brands
- Optimized adoption in platform (52% payments adoption)

Team

- Team of 16 supporting 4,000+
- CS Operational Excellence

KEY CS PILLARS

Expansion

Customer growth and cross-sell, increasing ARR QoQ

Retention

Continuously drive customer value and minimize churn

Adoption

Increase platform stickiness and engagement

Advocacy

Customer-led growth as a force multiplier

ACTION

Customer Success framework

- Established team OKRs
- Developed CS reporting
- Customer journey mapping
- Scaled team with specialists

OKRs

NRR ≥ 115%
Payments adoption ≥ 40%
Churn ≤ 1.5%
NPS ≥ 55+
(TTV ≤ 3mo)

EXPANSION

Payments

- Playbook
- Incentive plan

Upgrade Opportunities

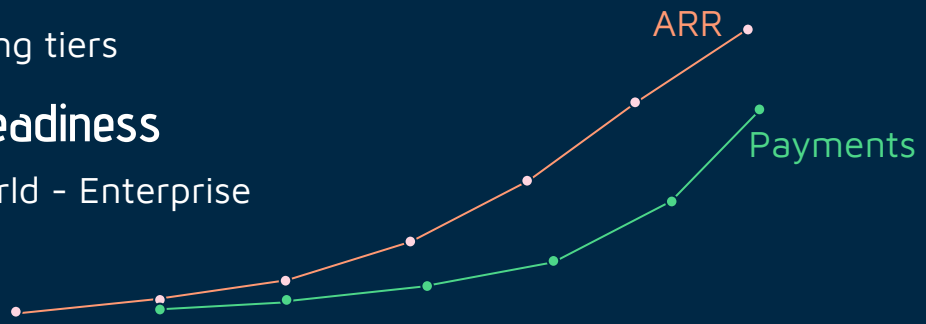
- Target shop growth in first 3-6mo
- Upgrading tiers

Enterprise Readiness

- Tint World - Enterprise

4x payments revenue growth

52% attach rate



RETENTION

Proactive churn mitigation

- Listen, empathize, show value, negotiation
- Health Score (see appendix)
- Customer ↔ Product feedback loop

Contracts for all Mid-Market

- Pitch long-term relationship & scale

Proactive engagement

- Strategic Account Plans
- Low-utilization or engagement

98%

customer retention

10% → 85%

of Mid-Market on contracts

ADOPTION

Customer on-sites

- Develop critical empathy
- Relational equity

Stickiness Drivers

- Key features and templates
- Early wins

Change Management

- Value prop by role
- Education

3x/QTR customer on-sites

Cut TTV by 50%

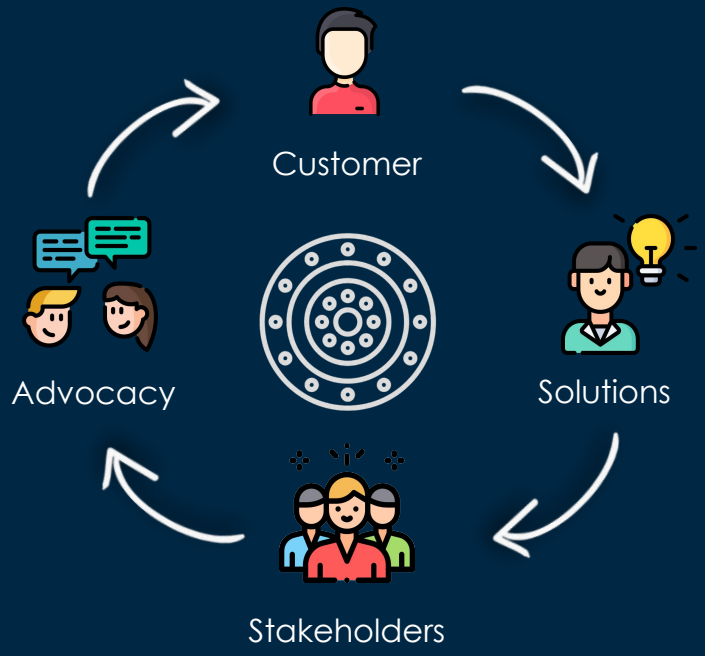
ADVOCACY

CS Advocacy

- Customer On-sites 25+
- Customer Advisory Board
- NPS & CSAT 56

Customer Marketing collab

- Referrals & references program
- G2 & Capterra reviews 250+ 4.8★
- Facebook user group 1K+
- Video testimonials & case studies 10+



Video Testimonials 40K+ views

Results

Company

- 2-3x ARR growth YoY
- Series A → Series C

Customers

- 700 customers → 4,000+
- All SMB → Mid-Market + 3 successful Enterprise

Team

- Team of 3 → 16: CS + Payments
- Inexperienced team → CS Operational Excellence

30% Growth QoQ

98% retention

52% payments adoption

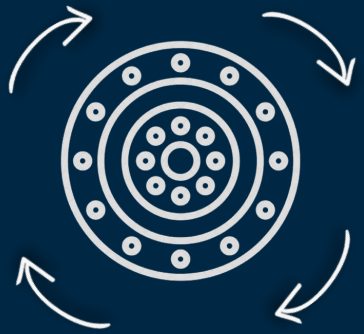
100s of referral customers

60+ reference customers

56 NPS Score

Learnings

- Prioritize Data Ops earlier
- Look for opportunities for specialization
- Investing early in the Customer Advocacy flywheel
- The closer you are to core operations, the better
- Reputation matters in Vertical SaaS



Thank you

"If I could sum him up, he is a leader that can make significant impact on company goals while making each person on his team feel celebrated and successful."

- Crissy W, former team member

Appendix

References

"He is the most approachable leader I have ever worked for.

If I could sum him up, he is a leader that can make significant impact on company goals while making each person on his team feel celebrated and successful."

- Crissy W, Director of Payments and former team member

"Austin drove horizontal alignment across leadership, and was a strong player coach with his team to lead by example and elevate our customers' experience.

He established strong foundations and fostered customer-led growth, which was instrumental in driving results."

- Travis B, COO and former manager

"Austin is a tenacious leader without losing one bit of humility...he's loved by clients, resourceful and ALWAYS solution oriented."

- Yona P, Enterprise CSM and former team member
